Having knowledge of Project Cost Controlling, Coordination with project team for project execution. This involves various activities such as estimating costs, monitoring expenses, identifying cost overruns, and implementing corrective actions to keep the project financially on track.

Coordination with the project team for project execution involves working closely with all members of the project team to ensure that tasks are completed efficiently and effectively. This includes assigning responsibilities, scheduling activities, communicating progress, resolving conflicts, and providing support as needed to ensure that the project progresses smoothly towards its goals.

Having knowledge about generating sales/service invoices and understanding taxes and duties is essential for businesses to maintain financial records accurately, comply with regulatory requirements, and manage tax liabilities effectively. By ensuring proper invoicing practices and tax compliance, businesses can minimize risks, improve financial transparency, and support long-term sustainability and growth.
